AIDS TREATMENT IN RWANDA

“Rwanda is one of the hard hit countries in the world but it has the leadership, the political commitment, and the financial resources to reverse the devastating effect of HIV/AIDS.”

- Josh Ruxin, coordinator of the HIV/AIDS task force for the Millennium Project

<http://www.earthinstitute.columbia.edu/news/2003/story07-01-03.html>

1

The adult HIV prevalence rate in Rwanda is 3.1%

<http://www.cdc.gov/nchstp/od/gap/countries/rwanda.htm>

2

There are 250,000 people living with HIV/AIDS in Rwanda

3

There are only 223 HIV testing and counseling sites

4

There is an estimated 45,889 adults in need of ART, and only 26,355 are currently on ART

5

While there are 5,158 children in need of ART, only 2,578 are on ART All other statistics - <http://www.plusnews.org/profletreatment.aspx?Country=RW&Region=GL#>
